

CALL FOR DEMONSTRATIONS: **Connected, Autonomous and Smart City Technology**

 **ITS Heartland Annual Meeting, May 1-3, 2017**
Hyatt Regency Hotel - Wichita, Kansas

The ITS Heartland Annual Meeting is the gathering point for the transportation technology leaders from the public and private sectors in Iowa, Kansas, Missouri, Nebraska and Oklahoma. We anticipate over 200 representatives from the five states and local agencies as well as private sector consultants and vendors will be in attendance for this 3-day event in the heart of the Midwest. ITS Heartland is one of the largest state chapters of ITS America, the leading advocacy group for transportation technology in the U.S.

CALL FOR DEMONSTRATIONS:

As part of this event, conference organizers are accepting proposals to showcase connected, autonomous and smart city technologies. The City of Wichita has a large paved lot (80,000 sq. ft.) adjacent to the Hyatt Regency Hotel, where the conference is being held, that will facilitate demonstrations in a safe and easily accessed area. The surrounding street system is also available for demonstrations if the technology is tested and approved by City representatives for demonstration. Media coverage will be encouraged and facilitated by ITS Heartland.

HOW TO APPLY: (2 page limit)

Please provide the following items to submit your demonstration for review:

1. Company/organization description
2. Demonstration proposal (include: website links, space requirements, communication needs and any services or considerations required from ITS Heartland and/or the City to facilitate the demonstration)

Please note: Further discussions with proposers and refinement of the demonstration proposal will take place after submissions are received.

SUBMIT PROPOSAL:

Please direct any questions and/or your proposal to Amy Lucke, ITS Heartland Chapter Administrator, at alucke@meetingsnorthwest.com or 406.360.8829.

DEADLINE:

FEBRUARY 15, 2017

DEMONSTRATORS CHECKLIST (once accepted):

- Have registered for a booth in the exhibit hall or be a gold or platinum sponsor
- Facilitate reservations for meeting attendees wishing to participate in a demonstration (if applicable)
- Be responsible for any direct costs associated with their demonstration
- Have appropriate insurance coverage (details will be provided)
- Meet all local and state permitting requirements
- Adhere to local laws and statutes
